

Inspired by **patients**.
Driven by **science**.

BMIC meets Industry:
Imaging hallmarks of disease progression
& treatment response

13h15 – 13h25	Introduction
13h25 – 14h05	Karel Deblaere (UZ Gent & UGent) <i>“MRI in follow up of disease progression and treatment”</i>
14h05 – 14h45	Paul Maguire (UCB) and Koen Van Laere (UZ Leuven & KU Leuven) <i>“Optimizing patient clinical trial dosing for an investigational anti-epileptic medicine using SV2A PET”</i>
14h45-15h15	Pitches – <i>present your own work!</i>
15h15-15h35	Break
15h35-16h15	Céline Vermeiren (UCB) <i>“Tau PET tracers (AV-1451, THK5351) and their MAO off target”</i>
16h15-16h55	Frauke Alves (Max-Planck-Institute for Experimental Medicine & University Medicine Center Göttingen, Germany) <i>“Preclinical evaluation of therapeutic concepts and response by multimodal imaging”</i>
16h55-17h25	Pitches – <i>present your own work!</i>
17h25-18h30	Reception with speed dating industry & academia
