BELNUC Regular Board Member Application: Motivation Letter

Dear BELNUC Board, Dear BELNUC members,

I have been a member of BELNUC since I entered the nuclear medicine profession because I feel that it is important to be unified in our professional community. In my opinion, BELNUC plays an important role in the unification, the ongoing development and the protection of our nuclear medicine profession in Belgium and abroad. I truly admire the dedication of board members who, by volunteering their time and effort, continually contribute to the wellbeing of our field. I would, in turn, like to be able to give back to my nuclear medicine community. Therefore, I hope to be able to use my professional experience, collaborative and organizational skills, multicultural and language background, dynamism and drive to contribute to BELNUC as a board member.

Sincerely,

Mariana Andrade
