Dear BELNUC Board and BELNUC Members,

I am writing to express my interest in joining the BELNUC Board as a board member. With a longstanding commitment to nuclear medicine in Belgium, I believe my experience and dedication align well with BELNUC's mission to advance our field. Already a member of BELNUC since 1998, I'm working in the AZorg Hospital in Aalst (since January 2025 fusion of OLV and ASZ Aalst). Currently, I am an active participant in the Radioligand Therapy Workgroup of Belnuc, where I collaborate with the colleagues to enhance therapeutic practices within our community.

Throughout my career, I have remained committed to the advancement of nuclear medicine, engaging in continuous education and contributing to various professional groups. I am particularly passionate about the integration of innovative therapies and diagnostic techniques to improve patient outcomes.

I am confident that my experience and dedication to the field would allow me to make meaningful contributions to BELNUC's ongoing efforts to promote excellence in nuclear medicine. I am therefore eager to collaborate with fellow board members to pursue our shared goals and support the professional community.

Thank you for considering my application. I look forward to the opportunity to contribute to BELNUC's mission.

Sincerely,

Olivier De Winter
