

Dear members of the selection committee,

I would like to apply for the position of secretary of the Belgian Society for Nuclear Medicine. This role strongly appeals to me because I would like to take on a more active role within the association.

The association is committed not only to organizing scientific meetings but also to promoting quality, innovation, and collaboration within the field. These tasks seem essential to the future of our specialization, and I would therefore be honored to take on a specific role within this organization.

The role of secretary seems the most suitable role within the organization for my profile. In my current and previous positions, I have gained experience in administrative coordination and communication. I would like to use my organizational talent and communication skills to ensure the smooth operation of the board and to strengthen the association's administration.

Thank you in advance for considering my application.

Sincerely,

Stijn Van Hecke
